

Total Patients recruited: 76
Sites Open: 9

Top Recruiting Sites

1. St Mary's
2. Charing Cross
3. Kettering General

July Recruitment

Well done to Kettering General Hospital on recruiting 3 participants within two months of opening!

Congratulations to Bristol Royal Infirmary for recruiting their first two participants!

Huge well done to Charing Cross for recruiting the first two SepTiC GM-CSF participants!

Congratulations to the QA Portsmouth team for recruiting their first participant!

Study Updates:

- eCRF Update – We have made updates to our OpenClinica database.
- The admission form is no longer required for randomisation, this form must still be completed but can be done post-randomisation – we have updated the randomisation guidelines.
- We have updated the eCRF completion guidelines to v2.0, please familiarise yourself with this, it is available on our website.

- We no longer require CVs for doctors assessing eligibility, we have updated our training log to include a statement that they are employed by the hospital and to provide their GMC number

- New documents for IMP prescribers – training sheet and log should be provided to anyone prescribing the trial IMP who isn't already on the delegation log but can prescribe as part of their regular clinical duties.

All updated documents are available on the site section of our website:

- [For Site Staff \(septictrial.co.uk\)](https://septictrial.co.uk)

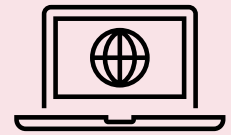

FAQ of the month:

Q. If the patient misses the 24h recruitment window for diagnostic and fluid intervention, could they still be recruited to the GM-CSF intervention?

YES – if the patient has been in the ICU for longer than 24h, but still fulfills all the criteria INCLUDING the extra criteria for the GM-CSF intervention then they can be randomised to this intervention.

Upcoming Webinars

22nd August 13:00 – 14:00

Focus on Fluid

With fluid intervention lead Dr Jon Silversides

18th September 11:00-12:00

GM-CSF Arm

With GM-CSF intervention lead Dr Anthony Rostron

8th October 14:15-15:15

SepTiC Trial

With Prof. Danny McAuley

The zoom link can be found on our website

We are slightly behind our NIHR target for number of sites open and patients recruited, we are encouraging all sites who are not yet open to do so as soon as they can to help us reach our targets. If you have any questions from an operations perspective or from R&D please do reach out to us, we can help!

Sites needed to reach target
