REMINDERS

Day 180 Follow up

Remember to complete your day 180 follow ups, the dates are automatically calculated on the randomisation log- we would ask the site to contact the patient three times, at different times of day, if possible, ensure attempts to contact the patient are documented in the notes.

Test Tube Expiry dates

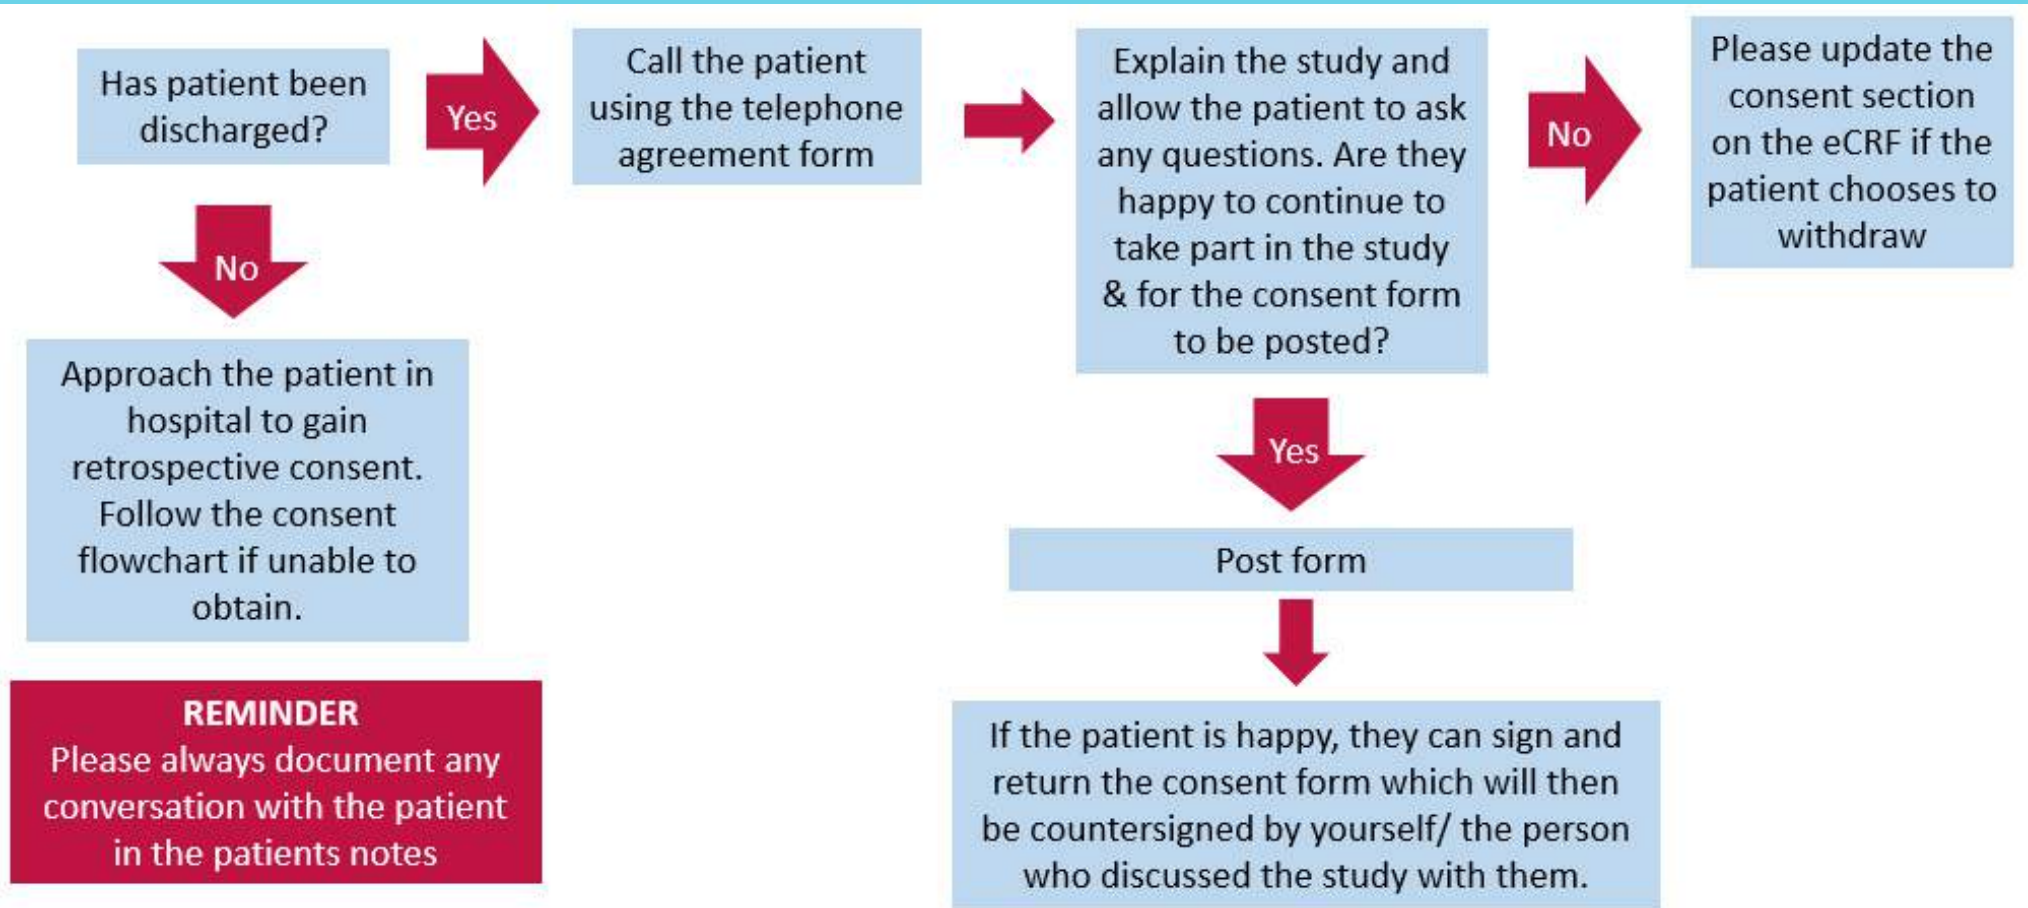

Please remember to check your test tube expiry dates and let the team know if there are any that are coming up to their expiry dates.

Telephone Consent Refresher

We have a telephone agreement form for personal legal representative, this can also be used to obtain retrospective consent if the patient is discharged with capacity and written consent was not obtained prior to discharge. Below is the telephone consent process:
